Especially the highly attractive longer term or junior group funding schemes (e.g. Emmy Noether, Sofja Kovalevskaja, Helmholtz, Fritz Thyssen) are varying in this regard: For some the cut-off date is the date of your PhD certificate, for some it is that of your thesis defense, which makes a noteworthy difference when, for example, you can only apply up to four years after your PhD. In this regard, please make yourself familiar with these regulations early on and, if possible for you, consider an embargo/restricted online publication to avoid missing the chance to apply for these funding schemes. Please check the cut-off dates of a selection of fellowships here (please note the list is not exhaustive).</i></p>
